A NATIONAL HISTORIC LANDMARK
1000 Mountain Rest Rd, New Paltz, New York 12561 (845) 255-1000 mohonk.com

PETs ARE NOT PERMITTED ON THE PROPERTY.

LEGEND

- Diagonal Stride Only
- Hiking Trail
- Snowshoeing Only (unimproved)
- Diagonal Stride & Skiing
- Auto Road
- Bridge
- Narrow Caution
- Drainage Ditch
- Cliff line

EAWER trails generally have flat terrain with mild grades and gentle turns. They are the best choice for beginner skiers and snowshoers or those who want an easy outing. Beginners should be aware that easier trails often intersect with trails of greater difficulty and should refer to their maps.

MORE DIFFICULT trails tend to have rolling terrain combined with challenging grades and turns. These trails are often adjacent to steep cliffs and deep chasms and entail an element of risk for the skier and snowshoer. These trails may lead to remote areas.

MOST DIFFICULT trails tend to have rolling terrain combined with steep grades and sharp turns. Trails are often on the edge of cliffs and deep chasms. There is danger associated with these trails, with risk of serious injury. They should be attempted only by the agile and experienced skier and snowshoer in good health and with appropriate equipment and clothing. These trails often lead to remote areas.

These symbols indicate the relative degree of difficulty of a particular trail COMPARED WITH ALL OTHER TRAILS at Mohonk. If you are unfamiliar with this ski area, you should transition through the levels of difficulty beginning with trails marked "easier."

IMPORTANT: SEE OTHER SIDE FOR GUIDELINES AND SAFETY INSTRUCTIONS.
WHEN TRAILS ARE OPERATING FOR SKIING & SNOWSHOEING, WALKING/RUNNING ARE NOT PERMITTED.

WHEN TRAILS ARE Icy, MICROSPIKES/TRACTION DEVICES ARE REQUIRED.
PETS ARE NOT PERMITTED ON THE PROPERTY.

CROSS-COUNTRY SKI & SNOWSHOE GUIDELINES

- Carry a map with you at all times.
- Follow trail markings and ski only in the direction indicated (all trails are marked on your right).
- If stopped, step out of the track. Avoid obstructing trails.
- To pass a slower skier, shout “Track” and the skier should allow you to move ahead.
- Skiers going downhill always have the right-of-way and should be allowed to proceed.
- Please do not snowshoe in the cross-country ski tracks.
- Snowshoe on the non-tracked side of trails or in the middle between the two sets of tracks.
- Snowshoers may use all the trails to yield to skiers. Skiers have the right of way on all trails.
- Please do not walk on trails without snowshoes.
- Always ski in constant control of speed and course so you can avoid striking plainly visible or clearly marked obstacles, and other skiers/snowshoers.
- If you fall, cover your “Strimark” (the dust you’ve made in the snow).
- Never ski/snowshoe beyond your limits or ability to overcome variations in slope, trail configurations and refuge or substandard conditions which may be caused or altered by weather, slope, trail maintenance work or skier/snowshoer use.
- Please carry out what you carry in.
- Please check trail information boards for daily opening/closing of trails.
- Never ski/snowshoe alone.
- Be advised that all timing, poles, signage, and other marking devices are in place to inform you and to indicate a potential hazard or obstacle. THESE MARKERS WILL NOT PROTECT YOU FROM INJURY. It is your responsibility to stay away from marked areas.
- All accidents or incidents must be reported before leaving the ski/snowshoe area.
- Never ski/snowshoe in an area not designated for skiing/snowshoeing.
- Never ski/snowshoe on any part of a trail which has been designated “closed” by the area.

WINTER SNOW BIKING

- Snow biking is permitted on the designated bicycle trail system on Mohonk Mountain House property.
- Please help us in creating a respectful and cooperative trail usage experience for all users.
- Only ride designated bike trails. (Please see Bicycle Trail Map)
- Helmets are required for all riders.
- Do not ride in the classic ski tracks. Give skiers a wide berth. Ride single file.
- Riding is only permitted when temperatures are below 25 degrees F for the duration of planned ride.
- Be an ambassador for the sport — stay polite, educate other bikers, discourage bad behavior, follow the rules.
- Purpose-built Snow Bikes only. Tires must be wider than 3.5” and tire pressure must be less than 10 psi.

SAFETY INFORMATION

The ski and snowshoe routes around Mohonk represent every degree of difficulty. The trails have been constructed to minimize disturbance to the outdoor environment. In choosing a route, please take into account your skills as well as the natural hazards associated with mountain skiing and snowshoeing.

Remember that weather conditions are subject to change and can make paths and trails extremely hazardous. Please note that, at times, even the easier trail may be dangerous, with the risk of serious injury.

For your safety and to ensure protection of the woodland, please stay on designated trails.

Please watch for broken and uneven trail surfaces and always stay under control.

As a condition of being permitted to use the grounds, the guest agrees to assume all responsibility for personal injury, loss, and/or damage to property and further agrees to hold Slimley Brothers, Inc. harmless against all risk of injury, loss, and/or damage to property.

In consideration of Mohonk Mountain House allowing use of its facilities, it is agreed that the appropriate rates and extra charges, if any, will be paid, and it is agreed that if there is a claim or dispute that arises out of the use of the facilities that results in any legal action being brought as a result of the use at any of the facilities, all issues will be settled by the Courts of the State of New York, Ulster County, which is agreed shall have exclusive jurisdiction over every party in connection with any such dispute, lawsuit, or claim.
