MOHONK MOUNTAIN HOUSE LAUNCHES HIDDEN HISTORIES

Augmented reality app immerses guests in the resort's 150-year history

NEW PALTZ, NY – Mohonk Mountain House, the historic mountain resort in New York's Hudson Valley, launched an augmented reality (AR) mobile app to celebrate its 150th anniversary in 2019. Named **Hidden Histories**, the app utilizes state-of-the-art immersive technologies so that guests can access and learn about Mohonk's rich history on their smartphones or tablets.

Hidden Histories gamifies Mohonk's history, turning it into a treasure hunt for 12 pieces of artwork throughout the resort that guests can view through the app's virtual gallery. By tapping on the artwork's image in the virtual gallery, a specific hint to the artwork's location is revealed along with a piece of trivia about the art. When guests find the artwork, the app instructs them to tap the camera icon and center the artwork on their screen to unlock the AR effect and **Mohonk Stories**: videos of Smiley Family members, longtime staff, and loyal guests sharing their personal thoughts and deep-rooted connections to the resort. Guests who locate each of the images and unlock all 12 hidden videos are eligible to enter a sweepstakes to win a complimentary two-night stay for two adults at Mohonk.

"Throughout our 150 plus years of operation, Mohonk Mountain House has welcomed five U.S. presidents and countless world leaders, hosted conferences that were the genesis of the United Nations, and preserved thousands of acres of land in New York's Hudson Valley," said President Eric Gullickson. CEO Tom Smiley added, "As an historic resort, we're incredibly mindful of how we use technology. Hidden Histories uses the latest technology in a thoughtful way that encourages guests to engage with our history, fueling conversation among family and friends."
